Bekasi

Final-year Informatics Engineering student at Indraprastha University (UNINDRA) with 3+ years of experience as IT Support / Helpdesk. MTCNA certified with proven expertise in Windows Server/Linux environments, Active Directory administration, and MikroTik network infrastructure. Managed 50+ workstations and resolved 50–100 support tickets weekly while maintaining 99% operational uptime. Eager to contribute strong technical troubleshooting and infrastructure maintenance skills as an IT Support Specialist.

Pengalaman Kerja

PT Profescipta Wahana Teknik - East Jakarta

Mar 2022 - Mar 2026

IT Support

- **Hardware & Systems Administration:** Maintained, assembled, and configured 50+ workstations running Windows (7/10/11, Server 2003/2007) and Linux (Ubuntu/Debian) to ensure 99% uptime. Managed fleet printer sharing across Epson, Brother, HP, and Canon devices.
- **Active Directory & Identity Management:** Administered Active Directory accounts, managed user onboarding/offboarding, provisions corporate email access, handled password resets, and configured folder access permissions.
- **Network & Surveillance Infrastructure:** Monitored and configured local network devices using MikroTik routers, TP-Link, and Ruijie Access Points alongside Hikvision CCTV surveillance systems to maintain reliable office connectivity.
- **Data Backup & IT Asset Management:** Executed monthly dual-location data backup routines (to local server and secondary storage), documented IT assets, tracked software licenses, and managed SSL/domain renewals with external vendors.
- **Network & Surveillance Monitoring:** Monitored and maintained local network infrastructure (LAN/Wi-Fi, routers, switches) and client CCTV systems, resolving connectivity issues promptly.
- **Remote & On-Site Technical Support:** Delivered fast-response technical support both on-site and remotely using AnyDesk, TeamViewer, and UltraViewer to resolve end-user technical incidents.
- **IT Asset & Licensing Administration:** Managed IT asset documentation, tracked software licenses, and scheduled domain/SSL renewals with vendors to ensure compliance and prevent service disruptions.

Pengalaman organisasi

- Sekarang

Keterampilan, Prestasi & pengalaman lain

- **Hard Skills** 🌟 (2024): Hard Skills (2024): Networking & Hardware: MikroTik (RouterOS), TP-Link, Ruijie AP, Hikvision CCTV Systems, PC Assembly, Fleet Printers & Peripherals (Epson, Brother, HP, Canon). Systems & Servers: Active Directory, Windows Server (2003/2007), Windows (7/10/11), Linux (Ubuntu, Debian), File Server Permissions & Sharing. Tools & Maintenance: AnyDesk, TeamViewer, UltraViewer, Routine Data Backup (Server & Storage), Ticket Management.
- **Soft Skills** 🌟 (2024): Soft Skills (2024): Problem Solving & Analytical Thinking: Menganalisis dan menyelesaikan gangguan jaringan atau kerusakan perangkat secara cepat. End-User Communication: Menjelaskan solusi teknis dengan bahasa yang gampang dipahami oleh staf non-IT. Incident & Time Management: Memprioritaskan penanganan 50-100 tiket gangguan per minggu. Technical Documentation: Menyusun dokumen SOP, inventaris aset, dan skema topologi jaringan. Vendor Collaboration: Bekerja sama dengan penyedia layanan internet, domain/hosting, dan supplier hardware.
